

City of Grover Beach

**REQUEST FOR PROPOSAL
FOR IMMEDIATE RELEASE**

Tuesday, January 27, 2009

Contact: Robert Perrault, City Manager
Telephone: 805/473-4567

**PUBLIC NOTICE
CITY OF GROVER BEACH**

**REQUEST FOR PROPOSALS
WEBSITE DESIGN AND CONSTRUCTION**

The City of Grover Beach is requesting proposals for City website design and development services. The City's objectives are to provide a website that will enhance the delivery of information to citizens and visitors regarding the functions, programs, services, and activities of their municipal government.

The goal of the City website is to provide simple and intuitive electronic access to public services, serve as a public communications tool, reduce transaction costs for the City and its citizens, and to streamline business operations. The redesigned site should have a theme that promotes the City with a welcoming, friendly, and professional feel. Specifically, the City would like the redesigned site to support e-government transactions in the near future such as on-line permits, on-line forms and applications, on-line payments, and a variety of other activities. The City will also consider streaming video in the future. The City will be in charge of content management and will own all content. Upon completion and acceptance of the project structure and design, the website will become the domain of the City of Grover Beach.

Interested parties are encouraged to view the Request for Proposal on the City website at: www.grover.org. Respondents are encouraged to attend the pre-submittal conference at 9:00 a.m. on Wednesday, March 4, 2009 in the City Hall Council Chambers. Final proposals submitted are to be received by the City of Grover Beach no later than **Friday, March 13, 2009 at 4:00 p.m.**
