DEPARTMENT OF PUBLIC WORKS

Sandbags Fill Station Program

The City of Grover Beach provides empty sandbags and sand at the Sandbag Fill Station located in front of the Public Works Corporation Yard, 1150 Farroll Road, in advance of major storm events. Citizens are asked to bring their own shovel and be prepared to fill the bags they need. Citizens may fill up to 20 sandbags per household. The City does not collect bags after the rainy season. It is the responsibility of the resident to lawfully dispose of the sand and the bag when they are no longer needed.

If your property has a history of flooding or recurring standing water each year (such as water building up at the garage or back patio for example), you are encouraged to get sandbags in advance of the rainy season and have them on hand throughout the winter. Sandbags and sand are also available at most hardware and home improvement stores.

For more information regarding the Sandbag Fill Station program, please call the Department of Public Works Administration Office at (805) 473-4530.

For additional information on how to protect your property from erosion, mud flows and flooding on your property, please review the [Guide to Erosion Control](#).
