

CITY OF GROVER BEACH

SECTION 2 CITYWIDE BUDGET

CITY OF GROVER BEACH
FY 14 Operating Budget
Overview

The City's Operating Budget is a flexible spending plan that is the legal authority for departments to commit financial resources to provide services within the City of Grover Beach. The Operating Budget for Fiscal Year 14 totals \$15,402,514, not including transfers. The budget includes \$7,261,532 in the General Funds, \$4,780,026 in Enterprise Funds and \$3,360,956 in Special Revenue Funds. The City's General Fund Budget is approximately 47% of the total Operating Budget in FY 14. The City's General Fund Budget provides most of the services commonly associated with government (public safety, recreation, planning, and public works). The Fiscal Year 14 Capital Improvement expenditures have also been included in the operating budget.

FY 14 Operating Budget - Overview

I. User's Guide to the Operating Budget

Each year, the Administrative Services Department coordinates the preparation of the budget document, while the Public Works Department coordinates the Capital Improvement Program.

The Operating Budget and Capital Improvement Program are combined to become the Annual Budget.

A. Operating Budget

The Operating Budget is summarized at a department level. Department budgets report related operations and programs aimed at accomplishing a broad goal or accomplishing a major service. Every effort has been made to present the budget in an easy to read format.

The Operating Budget is divided into eight sections: (1) Staff Report; (2) Citywide Budget (all Funds); (3) General Fund; (4) Special Revenue Funds; (5) Enterprise Funds; (6) Capital Improvement Program; and (7) Appendices. The Citywide Budget Section reports projected fund balances, appropriations, estimated revenues, and transfers for all City operations. The fund summary, the revenues, and the expenditures for each fund are reported within the applicable section.

As an introduction to the Operating Budget, it is recommended that the reader review the budget overview on the succeeding pages and the summary information included in Section 2, Citywide Budget. Department overviews are presented within the General Fund Section. The department overview presents the departmental mission statement, personnel positions, activity and funding totals, goals, objectives and accomplishments. Detail by line item is presented within the activity budget. Detailed information for each line item is available in the FY 14 Budget Companion Document.

Detailed object descriptions, numerical codes, and four years of budget information are presented in the operating budget. The General Fund, which has multiple departments, presents summary fund expenditures and individual departmental expenditures. Budget line item objects are listed in account number order. Historical information is for comparison purposes. A table of contents is provided in the front of this document to provide easy access to the budget detail.

FY 14 Operating Budget - Overview

B. Capital Improvement Program

The Capital Improvement Program is presented as a separate section in this document. The section matches funding sources with capital expenditures while developing a five-year schedule of projects.

The Capital Improvement Program section contains information in the following categories:

1. Park Projects - projects that are associated with City parks.
2. Infrastructure Projects - projects that are associated with various City infrastructure.

Each project has been assigned a project number that will remain with the project throughout its life. The project identification number allows the tracking and monitoring of projects over multi-year periods. The sequential numbers do not represent the priority of each project. Project priority is determined by the City Council.

Prior to City Council's final consideration of the budget document, the Capital Improvement Program will be provided to the Planning Commission for review to ensure consistency with the City's General Plan. A project description sheet is provided for each project to summarize the activity to date, the proposed FY 14 activity and the funding being provided.

II. Budget Change Procedures

The City's Operating Budget is a flexible spending plan which commits resources to the accomplishment of City Council goals and objectives. City Council approval is required for changes impacting fund balance, i.e., increases to appropriations that are not offset by matching increases to estimated revenue. The Administrative Services Department will continue its practice of preparing a Mid-Year Budget Review. This review is used to keep the City Council informed of key budget issues, forecasts and required changes. Mid-Year Budget Reports are normally scheduled to be presented no later than the second Council Meeting in February. The Audited Financial Report is the medium used to report final balances.

III. Constitutional Spending Limits

Article XIII (B) of the California Constitution provides that the City's annual appropriations be subject to certain State limitations. This appropriation limit is often referred to as the Gann Limitation. The City's limitation is calculated each year and is established by a resolution of the City Council.

Article XIII (B) limitation for Fiscal Year 14 is \$9,027,943. The Gann spending limitation is calculated by taking the prior year's limitation (\$8,557,022) and adjusting it by the growth factor in the California Per Capita Personal Income and the change in the population within the City of Grover Beach. The estimated tax-based revenues for FY 14 have been calculated to be \$5,905,577, which is \$3,122,366 less than the appropriation limit. Therefore, the City of Grover Beach is in compliance with Article XIII of the California Constitution for FY 14.

The Article XIII (B) limitation is not a restricting factor for the City of Grover Beach due to appropriation levels that have been held to a minimum. This factor will continue to be monitored annually and budget adjustments will be recommended if they are required in future years.

FY 14 Operating Budget - Overview

IV. Key Budget Assumptions

Several budget assumptions were included in the Operating Budget for FY 14. These assumptions will be carefully monitored throughout the fiscal year while evaluating budgetary performance. The key budget assumptions include:

- A. The 1/2 percent Sales Tax will bring \$606,4000 in revenue to the City in FY 14. In FY 14, \$79,500 will be used to purchase equipment and \$526,900 will be used for general obligations in the General Fund.

- B. In FY 13 the City received one-time property tax revenues due to the former redevelopment agency housing funds being redistributed by the County. In addition the City received one-time repayment of property tax administrative fee overpayment from previous years. Overall, General Fund revenues are anticipated to decrease slightly in FY 14.

- C. The City's Master Fee Schedule has recently been updated. A water rate hearing was conducted on February 19, 2013 and new water rates went into effect on April 1, 2013. Water rates were raised by 2% based on the Los Angeles Riverside County Consumer Price Index as approved by the March 19, 2013 Proposition 218 Hearing, after a public hearing conducted by the City Council.

- E. The City's management team is currently undergoing labor negotiations with bargaining groups regarding the City's financial position.

V. General Fund Balance

In the City of Grover Beach's Financial Policies, a total of 20% of the operating budget has been set for the minimum reserves. The reserves are set as follows:

- A. General Contingency of 5% - to provide funding to meet operational appropriation requirements in the event of minor or routine anticipated increases in expenditures. Any transfer of funds from the General Contingency may only be made upon City Council approval of an amendment to the Annual Appropriation Resolution.

- B. General Reserve of 10% - to provide funding to meet operation appropriation requirements in the event that the City experiences shortfalls in the collection of General Fund revenues or major unanticipated increases in expenditures. Any transfer of funds from the General Reserve may only be made upon City Council approval of an amendment to the Annual Appropriation Resolution.

FY 14 Operating Budget - Overview

- Emergency Reserve of 5% (Minimum) - to provide emergency funding as a result of a declared emergency, or to fund an unanticipated urgent event affecting or threatening the public health, safety, and welfare of the City of Grover Beach. The goal is to have the Emergency Reserve equal one year's collections of the largest revenue source. Any transfer of funds from the Emergency Reserve may only be made upon City Council approval of an amendment to the Annual Appropriation Resolution, subsequent to the City Council's finding that the guidelines established in the Resolution have been met.
- C.

The projected General Fund Cash Balance as of June 30, 2014 is anticipated to be approximately \$1,831,769, or 25.2% of the annual appropriation of \$7,261,532.

As projected, the City will exceed its goal of a minimum 20% contingency reserve. The General Fund's revenues, transfers, appropriations and reserves are summarized below:

		<u>Fiscal Year 14</u>
July 1, Projected Beginning Cash Balance		\$ 1,928,697
Source of Funds		
Estimated Revenue	6,650,863	
Transfers In	<u>\$ 618,241</u>	<u>\$ 7,269,104</u>
Uses of Funds		
Appropriation	\$ 7,261,532	
Transfers Out	<u>\$ 94,500</u>	<u>\$ 7,356,032</u>
Net Increase/(Decrease)		\$ (86,928)
June 30, Projected Ending Cash Balance		<u><u>\$ 1,841,769</u></u>
General Contingency of 5%		\$ 363,077
General Reserve of 10%		\$ 726,153
Emergency Reserve of 10.2%		<u>\$ 752,539</u>
Total Reserves		<u><u>\$ 1,841,769</u></u>

The Emergency Reserve falls short of the ultimate goal of being equal to the largest revenue source as shown below:

Property Taxes	\$ 2,909,792
Emergency Reserve (10.2% in FY 14)	\$ 752,539
Total Shortfall in Emergency Reserve	<u><u>\$ 2,157,252</u></u>

FY 14 Operating Budget - Overview

VI. Revenue Growth

Estimated General Fund revenues for FY 14 are \$6,650,863 . This amount represents an decrease of approximately \$294,511 for FY 14. The increases/decreases to the General Fund revenues are as follows:

	<u>Fiscal Year 14</u>
Reductions:	
Property Taxes - Current Secured	\$ (85,370)
Property Taxes - Street Lighting	\$ (30,980)
Sale of Property	\$ (145,584)
Miscellaneous Income	\$ (125,000)
Increases:	
Building Permits	\$ 46,390
Plan Check Fees - Building Outsourced	\$ 18,500
Administrative Processing Fee	\$ 18,854
All Other	\$ 8,679
Total Increases(Decrease) to Revenues	<u>\$ (294,511)</u>

VII. New Revenue Sources

A Master Fee Schedule update has recently been adopted by the City Council. Many of the fees have been updated and new fees have been added. Additionally, some of the fees in the Building and Planning Department have been changed to deposits to ensure full cost recovery for services provided.

FY 14 Operating Budget - Overview

VIII. Expenditure Containment

Expenditure containment has been and continues to be a high priority. The budget was built with increases being allowed only if they were necessary to keep the same level of service to the citizens. Many increase requests were denied. Equipment and machinery included in the budget are replacements of existing stock that is no longer functioning or that which was deemed essential. In total, FY 14 budget expenditures have increased by approximately \$491,170 from FY 13 estimated actual expenditures (excluding transfers and Capital Projects). The increase in budgeted appropriations over the budget cycle are the result of the following increases and decreases:

<u>General Fund</u>	Fiscal Year 13		Fiscal Year 14	
	Estimated	Actual		
Salaries and Benefits	\$	4,195,461	\$	4,595,700
Supplies and Services	\$	2,480,881	\$	2,513,532
Minor Capital	\$	52,610	\$	66,800
Debt Service	\$	12,810	\$	56,900
Total Expenditure Increase	\$	<u>6,741,762</u>	\$	<u>7,232,932</u>

The increases in Salary and Benefits is in part associated with increased costs in CalPERS Retirement Benefits in the amount of \$68,650 and an increase in Workers Compensation Insurance of \$60,600 and Medical Insurance increases of \$36,950. Additionally, the sergeant position has been unfrozen during the second quarter of the fiscal year. It should be noted that FY 13 Salary and Benefits includes 16 furlough days, where the FY 14 budget as proposed has no furlough days included.

IX. Key Financial Issues Ahead

The 1/2 percent Sales Tax increase, passed by the voters in November 2006, will continue to provide much needed revenue for the City's General Fund. This revenue source has established an equipment replacement fund for the City. Minimal Sales Tax Add-on funds will be used during this budget cycle for equipment replacement. Revenue sources appear to be stabilizing. For FY 14 there is no allocation of funds for street rehabilitation from this source.

Stabilized revenues and increasing expenditures will cause funding issues in the future. The City's financial policy states that only ongoing revenues will be used to fund ongoing expenditures. The current budget does not fall within the City's financial policy. The economy is still weak, but there are signs of recovery.

This budget projects the General Fund will have approximately \$1,831,769 in cash reserves at the end of FY 14. Anything below \$1,000,000 could potentially cause a cash flow issue. The City is Property Tax driven and receives this revenue source twice a year in December and April. Therefore, grants will need to have reimbursement requests completed in a timely manner to prevent reserves from being depleted as grants are paid on a reimbursement basis.

CITY OF GROVER BEACH

Financial Policy

Adopted by the City Council - Resolution No. 95-40
Revised - Resolution No. 95-46; 97-37; 97-38; 03-67; and 05-45

The cornerstone of municipal financial management is a sound policy that sets forth guidelines in the areas of revenues, operating expenditures, investments, reserves, financial reporting, capital improvements, and budgeting. Elected officials and appointed staff are accountable for public funds and responsible for the wise management of municipal finances. The community is entitled to reports that clearly communicate the financial health of the City. The following policies will guide and influence the financial management practices of the City of Grover Beach.

Budget Policies

The City Manager will provide a proposed Annual Budget to the City Council no later than June 1st of each year, and the City Council will review and adopt an Annual Budget no later than June 30th every year.

The City's budgetary system will be integrated and compatible with the accounting system, and the Annual Budget will be prepared on a basis in conformance with Generally Accepted Accounting Principles (GAAP).

The Mid-Year Budget Review will be presented no later than the second regular City Council meeting in February of each year. The Mid-Year Budget Review will include the current status of revenue collections and budget expenditures, economic trends, and state budget deliberations, as well as any proposed amendments necessary to bring the budget back into balance.

Annually, the City may seek the California Society of Municipal Finance Officers (CSMFO) award of Excellence for Municipal Budgeting.

Annually, the City may seek the Government Finance Officers Association (GFOA) Certificate of Achievement for Distinguished Budget Presentation award.

Annually, the City's Comprehensive Annual Financial Report (CAFR) will be prepared by an independent auditor in accordance with Government Auditing Standards issued by the Comptroller General of the United States.

Annually, the City may seek the GFOA Certificate of Achievement for Excellence in Financial Reporting.

Resources

Resources are defined as revenues collected during one fiscal year, as well as resources carried over from prior years. Revenues may be ongoing or one-time in nature, but resources from prior years are always one-time in nature. The following policies shall apply to resources:

One-time resources will be used for one-time expenditures or enhancement of reserves.

CITY OF GROVER BEACH

Financial Policy

Adopted by the City Council - Resolution No. 95-40

Revised - Resolution No. 95-46; 97-37; 97-38; 03-67; and 05-45

Resources - Continued

All revenue forecasts will be conservative.

Regular reports comparing actual to budgeted revenues will be prepared by City staff for the City Council.

The City will avoid using one-time resources to fund ongoing municipal services.

All potential grants shall be carefully reviewed for matching and/or maintenance-of-effort requirements.

Intergovernmental grants, which are grants from other governmental entities, will be evaluated to determine the long-term operating and maintenance costs associated with the grant.

Expenditures

Expenditures are payments made to employees, vendors, or contractors supplying goods or services to the City, except as provided in GBMC Section 2107.1; all expenditures must be made consistent with appropriations approved by the City Council in the Annual Appropriation Resolution.

Regular reports comparing budget appropriations to actual expenditures will be prepared by City staff for the City Council's information.

When new operating programs or capital projects are proposed, staff will provide the City Council with an analysis of the one-time and ongoing costs associated with the program or project.

With the exception of initial expenditures for the creation of new programs or during periods of economic distress which result in reductions in local revenues or state funding for municipal activities, all ongoing costs for operating programs shall be paid from the ongoing revenues.

Reserves

It shall be the City's policy to draw down reserves consistent with the following priorities:

The use of reserves for one-time expenditures that generates ongoing cost savings or cost avoidance.

The use of reserves for one-time expenditures that generates ongoing revenue enhancements.

CITY OF GROVER BEACH

Financial Policy

Adopted by the City Council - Resolution No. 95-40

Revised - Resolution No. 95-46; 97-37; 97-38; 03-67; and 05-45

Reserves - Continued

The use of reserves for a one-time expenditure that leverages the expenditure of significant public or private investment in the City by other entities.

The use of reserves to offset shortfalls in the collection of revenues.

The use of reserves to offset unanticipated increases in expenditures for current programs or projects.

General Fund - General Contingency

The City hereby establishes a General Contingency of not less than 5% of the current year General Fund operating budget. The specific purpose of the General Contingency is to provide funding to meet operation appropriation requirements in the event of minor or routine unanticipated increases in expenditures.

Any transfer of funds from the General Contingency may only be made upon City Council approval of an amendment to the Annual Appropriation Resolution.

General Fund - General Reserve

The City hereby establishes a General Reserve of not less than 10% of the current fiscal year's General Fund operating budget. The General Fund reserve should be increased to an amount greater than 10% when economic conditions warrant. The specific purpose of the General Reserve is to provide funding to meet operational appropriation requirements in the event that the City experiences shortfalls in the collection of General Fund revenues or major unanticipated increases in expenditures.

Any transfer of funds from the General Reserve may only be made upon City Council approval of an amendment to the Annual Appropriation Resolution.

General Fund - Emergency Reserve

The City hereby establishes an Emergency Reserve of not less than 5% of the General Fund operating budget. This reserve is established for the purpose of providing emergency funding as a result of a declared emergency or to fund an unanticipated urgent event affecting or threatening the public health, safety, and welfare of the City of Grover Beach. The goal is to have the Emergency Reserve equal one year's collection of the largest revenue source.

CITY OF GROVER BEACH

Financial Policy

Adopted by the City Council - Resolution No. 95-40

Revised - Resolution No. 95-46; 97-37; 97-38; 03-67; and 05-45

Any transfer of funds from the Emergency Reserve may only be made upon City Council's approval of an amendment to the Annual Appropriation Resolution, subsequent to the City Council's finding that the guidelines established in the Resolution have been met.

Water Enterprise Fund - General Reserve

The City hereby establishes a General Reserve of not less than 10% of the current fiscal year Water Fund operating budget. The Water Fund's General Reserve should be increased to an amount greater than 10% when economic conditions warrant. The specific purpose of the General Reserve is to provide funding to meet operational appropriation requirements in the event that the City experiences shortfalls in the collection of Water Fund revenues or unanticipated increases in expenditures.

Any transfer of funds from the Water Fund's General Reserve may only be made upon City Council approval of an amendment to the Annual Appropriation Resolution.

Wastewater Enterprise Fund - General Reserve

The City hereby establishes a General Reserve of not less than 10% of the current fiscal year Wastewater Fund operating budget. The Wastewater Fund Reserves should be increased to an amount greater than 10% when economic conditions warrant. The specific purpose of the General Reserve is to provide funding to meet operation appropriation requirements in the event the City experiences shortfalls in the collection of Wastewater Fund revenues or unanticipated increases in expenditures.

Any transfer of funds from the Wastewater Fund's General Reserve may only be made upon City Council approval of an amendment to the Annual Appropriation Resolution.

Appropriation Transfer Authority

The following criteria establish appropriation transfer authority as set forth in the Annual Appropriation Resolution:

Transfers between line items in the same program may be made by department heads.

Transfers between programs in the same fund may be made by department heads with City Manager approval.

Transfer between department budgets within the same fund may only be made by the City Council.

CITY OF GROVER BEACH

Financial Policy

Adopted by the City Council - Resolution No. 95-40
Revised - Resolution No. 95-46; 97-37; 97-38; 03-67; and 05-45

Transfers between different funds may only be made by the City Council.

Transfers to or from employee services line items may be made by the City Manager.

Capital Improvement Program

Annually, City staff will propose a Capital Improvement Program covering the subsequent five fiscal years. The plan will recommend specific funding of projects, and identify projects for further consideration.

The Capital Improvement Program will include a listing of projects for further consideration by the City Council. Such projects will be those which are determined to merit further study, but lacking funding sources.

Capital improvements will include Facilities and Infrastructure improvements which are valued over \$50,000.

Capital Improvement Program projects will be reviewed to determine the best method of financing the project. City Council will determine whether the project is funded on a "pay as you go" basis or a debt instrument.

The City will continue imposing development impact fees which ensure that a new development pays its fair share of the increased service capacity.

Fiscal Management

It is the City's policy to minimize the subsidization by the general taxpayer of the costs of services provided to the public which are of specific benefit, rather than general benefit. The City Council shall annually consider establishing specific cost-recovery policies related to such costs to be reflected in the Master Fee Schedule.

Consistent with the State Constitution, charges for services will not exceed the cost reasonably borne to deliver those services. Costs reasonably borne may include direct and in-direct costs, such as overhead, as well as reasonable reserves or amortization of equipment associated with the provision of the services.

The City will annually review the Master Fee Schedule to ensure that each user fee is reflective of its intended cost-recovery percentage, and will revise the fees as needed or revise the cost-recovery percentage.

CITY OF GROVER BEACH

Financial Policy

Adopted by the City Council - Resolution No. 95-40

Revised - Resolution No. 95-46; 97-37; 97-38; 03-67; and 05-45

Fiscal Management - Continued

The City will maintain water, wastewater and storm water rate structures which are adequate to ensure that these enterprise funds remain firmly and separately self-supporting, including the cost of operation, infrastructure maintenance and replacement, indirect cost recovery, and debt service.

Whenever required by bond indentures, the City will determine whether debt service coverage ratios are being met. Whenever coverage ratios are not being met, staff will recommend rate increases or expenditure reductions or some combination of the two, in order to meet coverage ratios.

Investments

The City will continue to have a written investment policy approved by City Council resolution on an annual basis. The policy for investments in priority order is safety, liquidity and yield.

The City Council will receive reports on the cash position and performance of City investments on a quarterly basis.

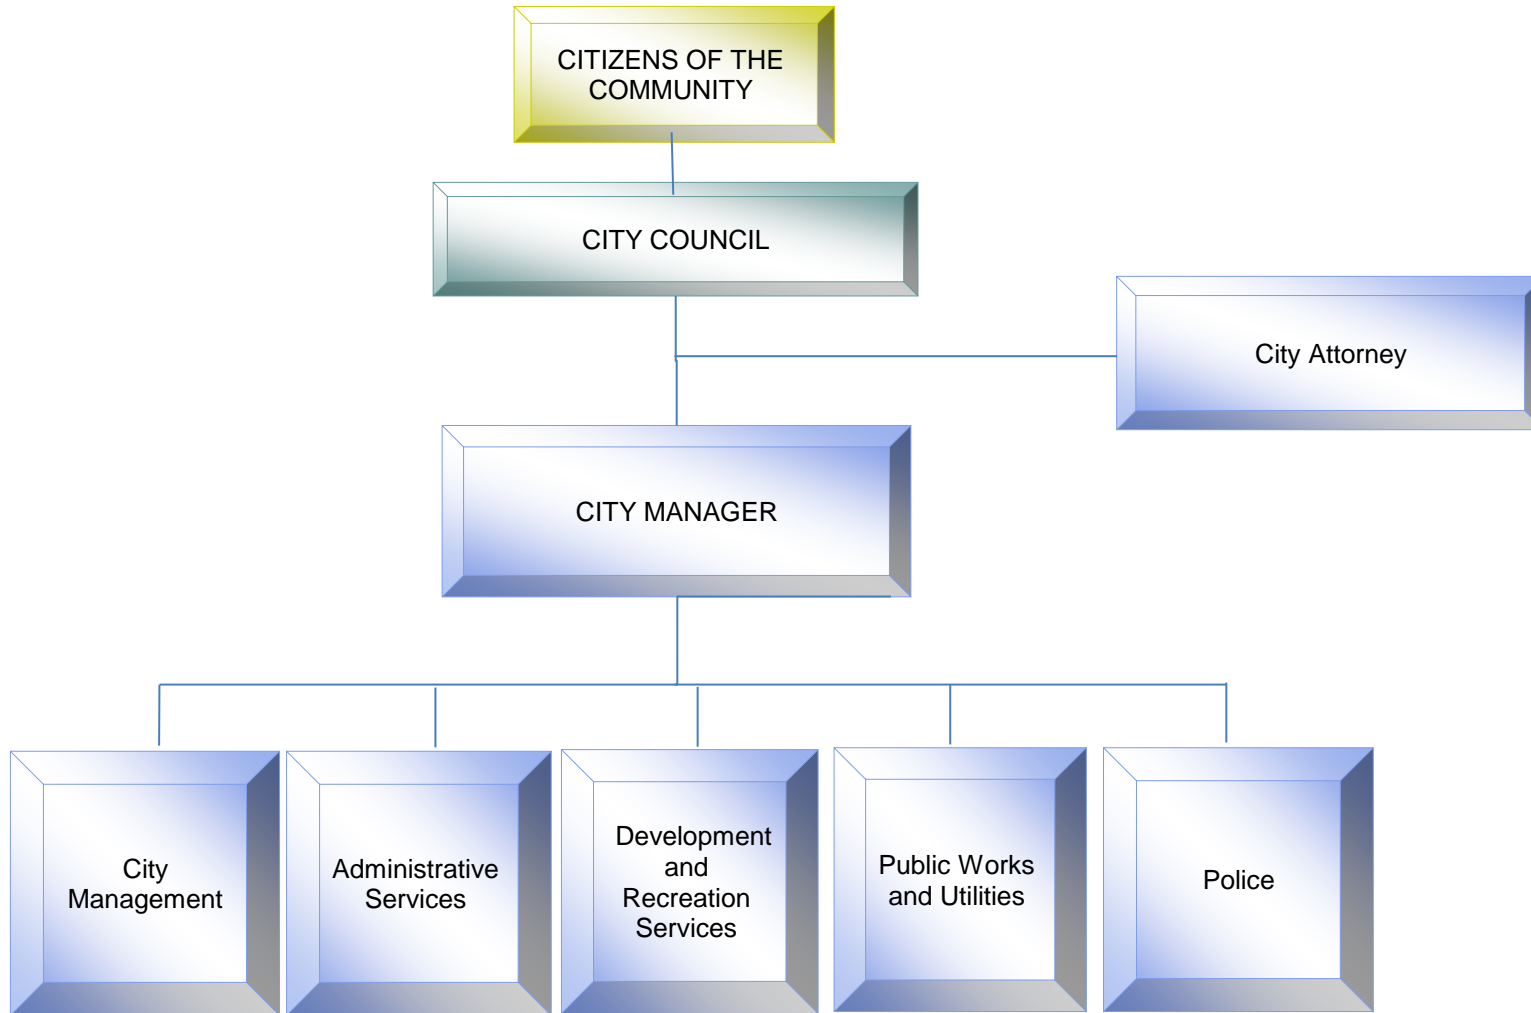

Capital Assets

Future maintenance needs for all new capital facilities will be fully costed out.

All equipment and facility maintenance needs for the next five years will be projected and updated annually.

All assets will be maintained at a level that protects capital investment and minimizes future maintenance costs.

CITY OF GROVER BEACH
TRANSFERS BETWEEN FUNDS

The City of Grover Beach uses transfers to charge one fund for services provided by another fund. The cost of the service to be provided to another fund is made up of two types of costs, direct costs and indirect costs. Direct costs are those expenses that can be directly attributed to the activity, such as the salary and benefit cost of a water employee working on sewer lines. The direct costs are transferred to the benefiting fund by means of personnel transfers and operating transfers. Indirect costs are expenses not readily identifiable with a particular action or service, but rather are incurred for a joint purpose which benefits more than one fund/department. Common examples of indirect costs are accounting, personnel, building maintenance, and utility expenses. Though indirect costs are not readily identifiable with direct operating programs, they can be allocated based on rational, logical methodology. The indirect costs are transferred to the benefitting fund by means of cost allocation transfers.

Operating Transfers - Operating transfers are for direct costs incurred in the General Fund, but used by other funds. Items such as telephone charges, postage, property tax, and utility costs are allocated directly to other funds based on the use.

Cost Allocation Transfers - Cost Allocation is a method of allocating indirect costs, provided by the General Fund, based on the proportionate share of benefits received. Different indirect costs have different methods of allocation. For instance, City Council's costs are based on the number of Council Agenda items, the City Manager's budget is based on citywide fund appropriations, and building maintenance costs is based on the number of departmental square feet in City buildings.

CITY OF GROVER BEACH
CITYWIDE - APPROPRIATIONS LIMIT
For Fiscal Year 14

**CITY OF GROVER BEACH
CALCULATION OF APPROPRIATION LIMIT FROM TAX PROCEEDS
FOR FISCAL YEAR 14**

Appropriation limit for FY 13 \$ 8,557,022

Multiplied by the appropriation limit change factors:

Per Capital Personal Income Change: 5.12%
 Conversion to Ratio: $\frac{5.12\% + 100}{100} =$ 1.0512

Population Change
 2013 13,211
 2012 13,163
 Change 48

Conversion to ratio: $\frac{48}{13,163} =$ $\frac{0.3647\% + 100}{100} =$ 1.0036

Appropriation Limit for FY 14 \$ 9,027,943

Estimated FY 14 Proceeds of Taxes Subject to Appropriation Limit \$ 5,905,577
